## About Sarah:

Sarah grew up in the small town of Walkerston in Queensland, raised by a single mum. Discovered as a model at 18, the country beauty moved to Sydney under contract to Chic Model Management spending her career travelling the world and working for high-end fashion labels.

Visiting such international food hubs as London and New York, as well as her then-partner's homeland, India, Sarah began to explore her love for food culture. Based in London, she embarked on a year of full-time study at the prestigious Le Cordon Bleu school, finishing top of her class.

Sarah was lured back to Australia as a contestant in the 2014 season of *Masterchef*. Finishing in the top 10, she was catapulted into the food industry. A cookbook was swiftly followed by a tour of the Subcontinent prompted by her TV profile and personal connection to the region.

A meeting with Indian restaurant entrepreneur Ashish Kapur led to the chance to open Antares, a 400-seat beach club and restaurant in Goa. Sarah's remarkable feat of determination and diplomacy was captured in the internationally successful TV series, *My Restaurant in India*.

Turning entrepreneur, Sarah recently launched a homewares range, Sarah Todd Living, to great acclaim in Asia. Now a single mum herself, raising her son Phoenix, she divides her time between Goa and Melbourne.

## GOODHOMES TAKES ITS CAMERA INTO THE WORLD OF CELEBRITY CHEF AND DESIGNER SARAH TODD

Unveiling her latest collection of Sarah Todd Living at the newly launched store Cottons and Satins, Worli, Mumbai, the Australian model and celebrity chef, Sarah Todd walks us through her debut collection kitchenware and soft linens

BY HEENAKSHI SHANKAR ON APRIL 14, 2017

Talking about her journey into India after Masterchef Australia, the celebrity chef was inspired by the need to create a collection which would find its place in our everyday. She says, "I have always dreamed of having my own line of decor products and it feels great to be associated with Cottons and Satins. My passion for food is now coming to life. On my travels across India I gained so much inspiration with colour, textures and patterns. It inspired me to create a range that does not sit gathering dust on a shelf, but is able to be used again and again, day after day. Hence, an accessible yet beautiful range of ceramics and homewares."
